SIAMP

Sanitary expertise & water friendly

Founded in 1947, SIAMP's origin was a toilet seat factory based in Monaco. Continually striving to improve the viability, efficiency and design of its products, SIAMP designs, manufactures and distributes a large range of products and systems for toilet equipment : flushing systems, cisterns, toilet seats and wall hung solutions.

Now a major player in the sanitary equipment market, SIAMP is chosen by many global bathroom brands to equip their cisterns with reliable flushing systems. SIAMP is in constant touch with this ever-evolving market, detecting new requirements of customers concerned by hygiene, comfort and sustainable development. SIAMP is therefore the source of innovation, recognised by a large number of international patents.

Designed and developed in Europe and produced in India, our products are continually tested and certified to the highest standing.

We thank you warmly for choosing a SIAMP product and for trusting us. Our R&D and quality departments rigorously tested the MONACO seat cover to work for 30 000 operations in normal use conditions.

SIAMP seat covers are warranted for a period of 2 years against any manufacturing defects for residential installation (1 year for commercial installation).

Warranty period is valid from the date of purchase of the product. Benefits of warranty can only be availed subject to verification of GST paid invoice and warranty card of the company. Customers are therefore required to keep the original invoice and warranty card of the product. The company shall make its best endeavor to provide onsite warranty services but due to unavoidable/exceptional circumstances the product may be required for offsite inspection at our service center or an authorized service associate.

For complete SIAMP warranty terms and conditions, please refer to our website www.siamp.com
