CALMEO

Pression (P) min 0,5 bar
Pression (P) max 12 bars
Débit 0,12 l/s à 3 bars
Section connection 3/8" 12/17

pas de pâte à joint

pas de lubrifiant

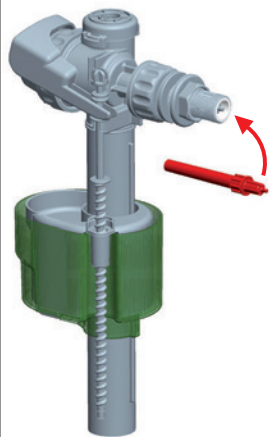

Lorsque le robinet flotteur est ouvert (le réservoir se remplit) de l'eau coule depuis l'arrière du robinet ; il s'agit d'un fonctionnement normal.

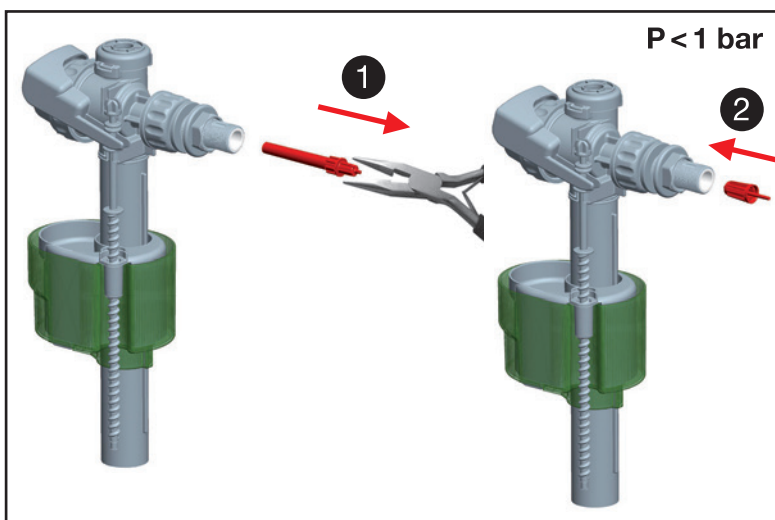

Avertissement : l'efficacité acoustique du robinet flotteur Quieto OD est liée à la qualité de l'installation qui le précède (robinet d'arrêt...)

INSTALLATION

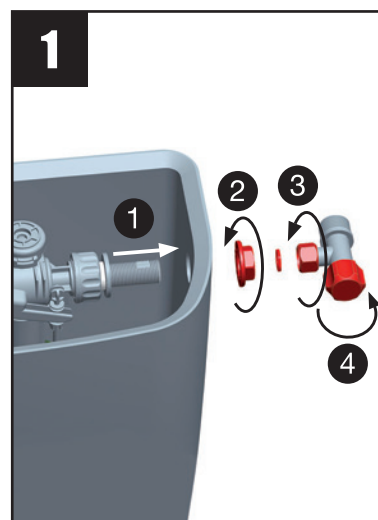

1 bar ≤ P ≤ 12 bars

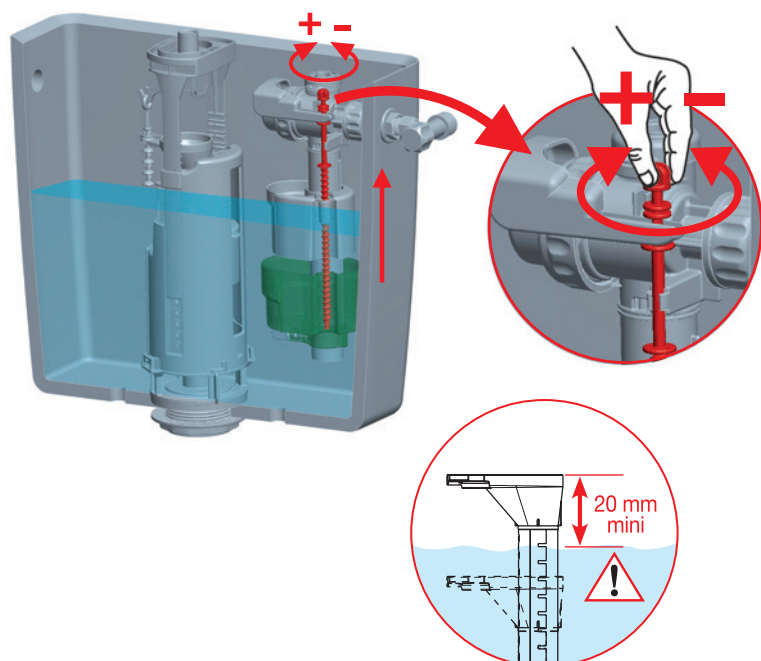

P < 1 bar
